

Food Ministry

A hot lunch program which is prepared on-site is available for students, staff and parents who wish to purchase it. A different entrée of the day is featured and published on a monthly menu. Students in grades 3 and up can also purchase from an a la carte menu including salad bar and grilled items such as those listed on the right.

Your child's student ID card contains a microchip that enables it to also be used as a meal card through a company called **MealpayPlus**. You can go online to check account balances, add value, and monitor the amount your child is spending each day. You can also set it up to notify you by email when the balance on the account is low, and even to automatically charge your credit card to replenish the balance if you desire.

If the card is lost, there is a \$15.00 fee to replace it, and the funds will be transferred over to the new card.

Serving line #1
